About this Profile

Welcome to the 2024 Super School Profile for St Francis Catholic Primary School. The Profile provides a comprehensive summary of numerous aspects of a school, including attainment and progress information, contextual analysis and attendance information, all in one place.

The Super School Profile provides you with:

- Headline analysis across a range of topics
- Visual cues to help you easily pull out key points from the analysis
- Benchmark information so you know how the school compares to averages
- Time series information so you can see direction of travel

The Profile is intended for use by headteachers, senior leadership teams, governors, link inspectors and anyone interested in getting a comprehensive, yet easy-to-digest overview of a school. The Profile may be particularly valuable in the run up to an Ofsted inspection, but it is expected to be a useful guide throughout the year.

Where does the data in the Super School Profile come from?

All data sources and some caveats to consider when looking at the analysis are detailed in the Appendix.

Important Information about Key Stage 2 Analysis

The KS2 attainment and progress analysis for 2024 is based on early, unvalidated data which includes pupils who were recently arrived from overseas. Note that these new arrivals may be discounted from the DfE performance tables and therefore the analysis in the Profile may differ from the final published figures.

All previous years' KS2 analysis is validated DfE data. An updated version of the KS2 analysis with validated data will be available after the DfE performance tables are released.

Updates for 2024:

- **EYFSP pupil characteristic breakdown**: Additional tables of data have been provided showing the achievement of each EYFSP aspect split by pupil characteristics.
- **Key Stage 2 Progress:** In the absence of Key Stage 1 to Key Stage 2 progress data due to the pandemic, this year we have included transition matrices that show progress from EYFSP to Key Stage 2 for reading, writing and maths.
- **Ethnicity analysis:** The Chinese ethnic group is now part of the Asian broad ethnic group, in line with the new approach taken by the DfE.
- **Attendance by year group:** Attendance analysis now includes a breakdown by year group, including how these compare to the same age group elsewhere in the local authority.
- **Severe absence:** Severe absence (>50%) is now shown on the attendance pupil map, attendance trend charts and as a breakdown in attainment sections.
- **Local context:** The local context page has an additional category specifically for your Reception cohort. This means that you can see if your latest pupil intake is likely to have a different context to other children in your school.

Explanation of Colour Coding Used

What do the coloured arrows mean in the analysis?

The Super School Profile allows you to compare your school's current performance with other comparators (e.g. a prior year or the England average). To aid this comparison, some of the tables of data include green and red arrows showing how your school compares. For attainment measures, the shading varies depending on how far above or below the comparator your school is. If the difference is the equivalent of 3 or more pupils, the arrow has a darker shade. The arrows do not indicate statistical significance.

Key

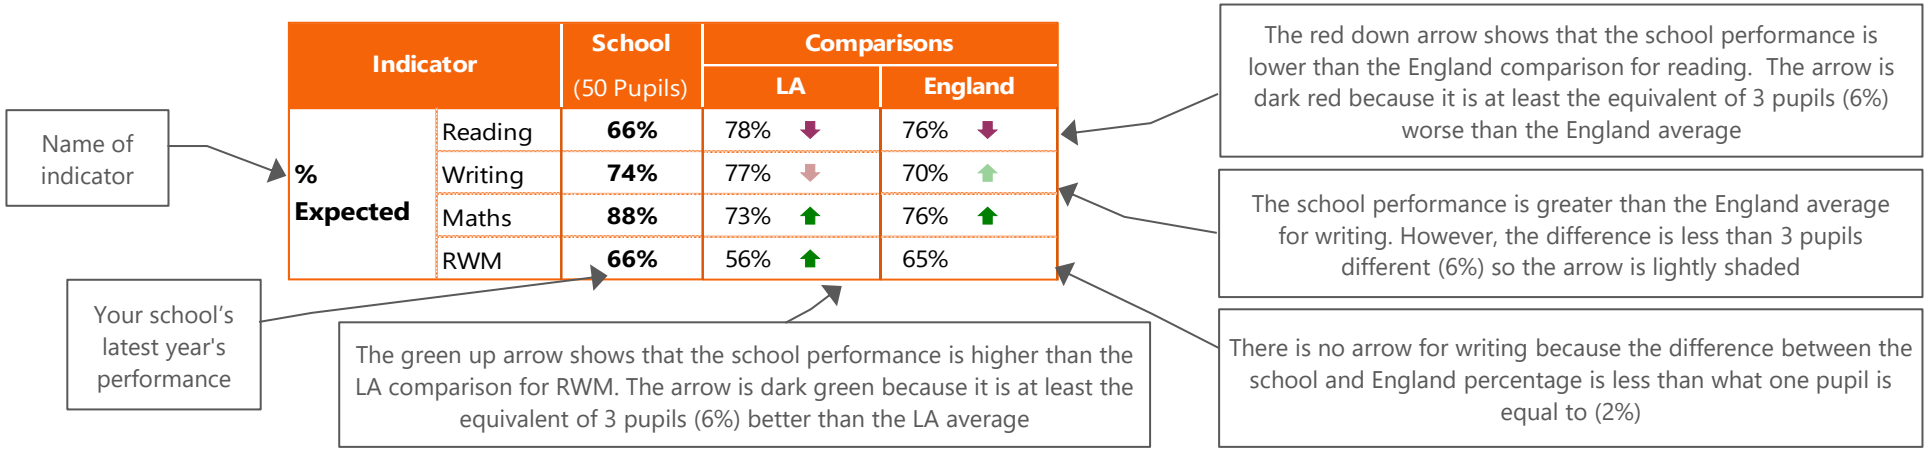
- >=3 pupils better than the comparator
- >=1 pupil better than the comparator

No arrow means the difference is within the equivalent of 1 pupil

- >=1 pupil below the comparator
- >=3 pupils below the comparator

Worked Example - Attainment

In this example the school has 50 pupils and therefore each pupil is 2% of the cohort (i.e. 100%/50). Hence, darker shades are used for differences of at least 6% (i.e. 3 x 2%).



Indicator		School (50 Pupils)	Comparisons	
			LA	England
% Expected	Reading	66%	78% ↓	76% ↓
	Writing	74%	77% ↓	70% ↑
	Maths	88%	73% ↑	76% ↑
	RWM	66%	56% ↑	65%

Colour coding on the Attainment & Progress Summary

The attainment and progress summary page uses colour coding in the same way as described in the example above. However, colour is used in the background shading of the school percentages, rather than on arrows, to compare school performance with England averages for the last four years.

The detailed analysis of performance by pupil groups uses shading to highlight groups that perform above or below average. Note that this does not mean their performance is particularly high or low compared to the same group of pupils elsewhere. Where the group performs the equivalent of at least 3 pupils above or below the 'All Pupils' figure, a darker shade will be used. If the gap the equivalent of at least 1 pupil a lighter shade will be used. Small groups of 3 or less are in grey font and never shaded green or red.

Colour coding in the Pupil Behaviour section

Where the exclusion rate is lower than the comparator rate, it is indicated with a dark green down arrow (since lower rates are better than higher rates). Any rate that is higher than the comparator rate is shown with a dark red up arrow. In other cases, the arrows may be black because there is no "better or worse" judgement that can be applied.

Questions to Consider

Questions to consider when reviewing attainment analysis

This section considers analysis across the whole of the primary phase, using similar types of analysis for each assessment. As such, there are a number of key questions that you should consider when reviewing the analysis in this section. For example:

1. How do your school results compare with LA and national figures? Are there any noticeable differences and, if so, can the reasons why be identified?
2. Can you identify a clear trend in your school performance, and how does this compare to the trends for the LA or England? Can the reasons for changes be identified? Are they linked to random fluctuations, changes in cohort size or 'real' changes in policy and practice?
3. How does the performance of particular groups of pupils compare with your school as a whole, and for the LA averages for that pupil group? Furthermore are the issues identified consistent across year groups? Are additional resources needed to support particular groups of pupils?
4. Can you identify any specific intervention/strategy that enabled certain pupils to attain above the expected standard? If yes, how can the school develop and share what has worked well throughout the school?
5. Were pupils who attained below the expected standard identified as being 'at risk' of underachieving? If so, what actions were taken?
6. If particular curriculum strengths have been identified, consider any strategies in place that may have positively impacted on a subject. Or if curriculum weaknesses have been identified, what possible improvement strategies could be implemented for these subjects? How far are the strengths and weaknesses identified specific to a particular year group or are they the same for the school as a whole?
7. Are there implications from the analysis for teaching and learning strategies, planning, assessment, professional development, provision or interventions?

Note on vulnerable pupils analysis

It is important to note that the numbers of pupils in certain groups can be small. Therefore, particular care should be taken when analysing the results of small groups as the effect of one additional pupil on a small group of pupils can be considerable (for larger groups the effect will be less marked).

This analysis shows the percentage of pupils achieving the expected standard for each pupil group at St Francis Catholic Primary School. Only groups with at least 3 pupils are shown. Groups of under 5 pupils are shown in grey. Numbers of pupils in each group are given in brackets. The colour coding is based on the group difference to the England average for all pupils (see the key to the right).

>3* above Eng. All pupils
>1* above Eng. All pupils
>1* below Eng. All pupils
>3* below Eng. All pupils

*Number of pupils (see page 4 for explanation)

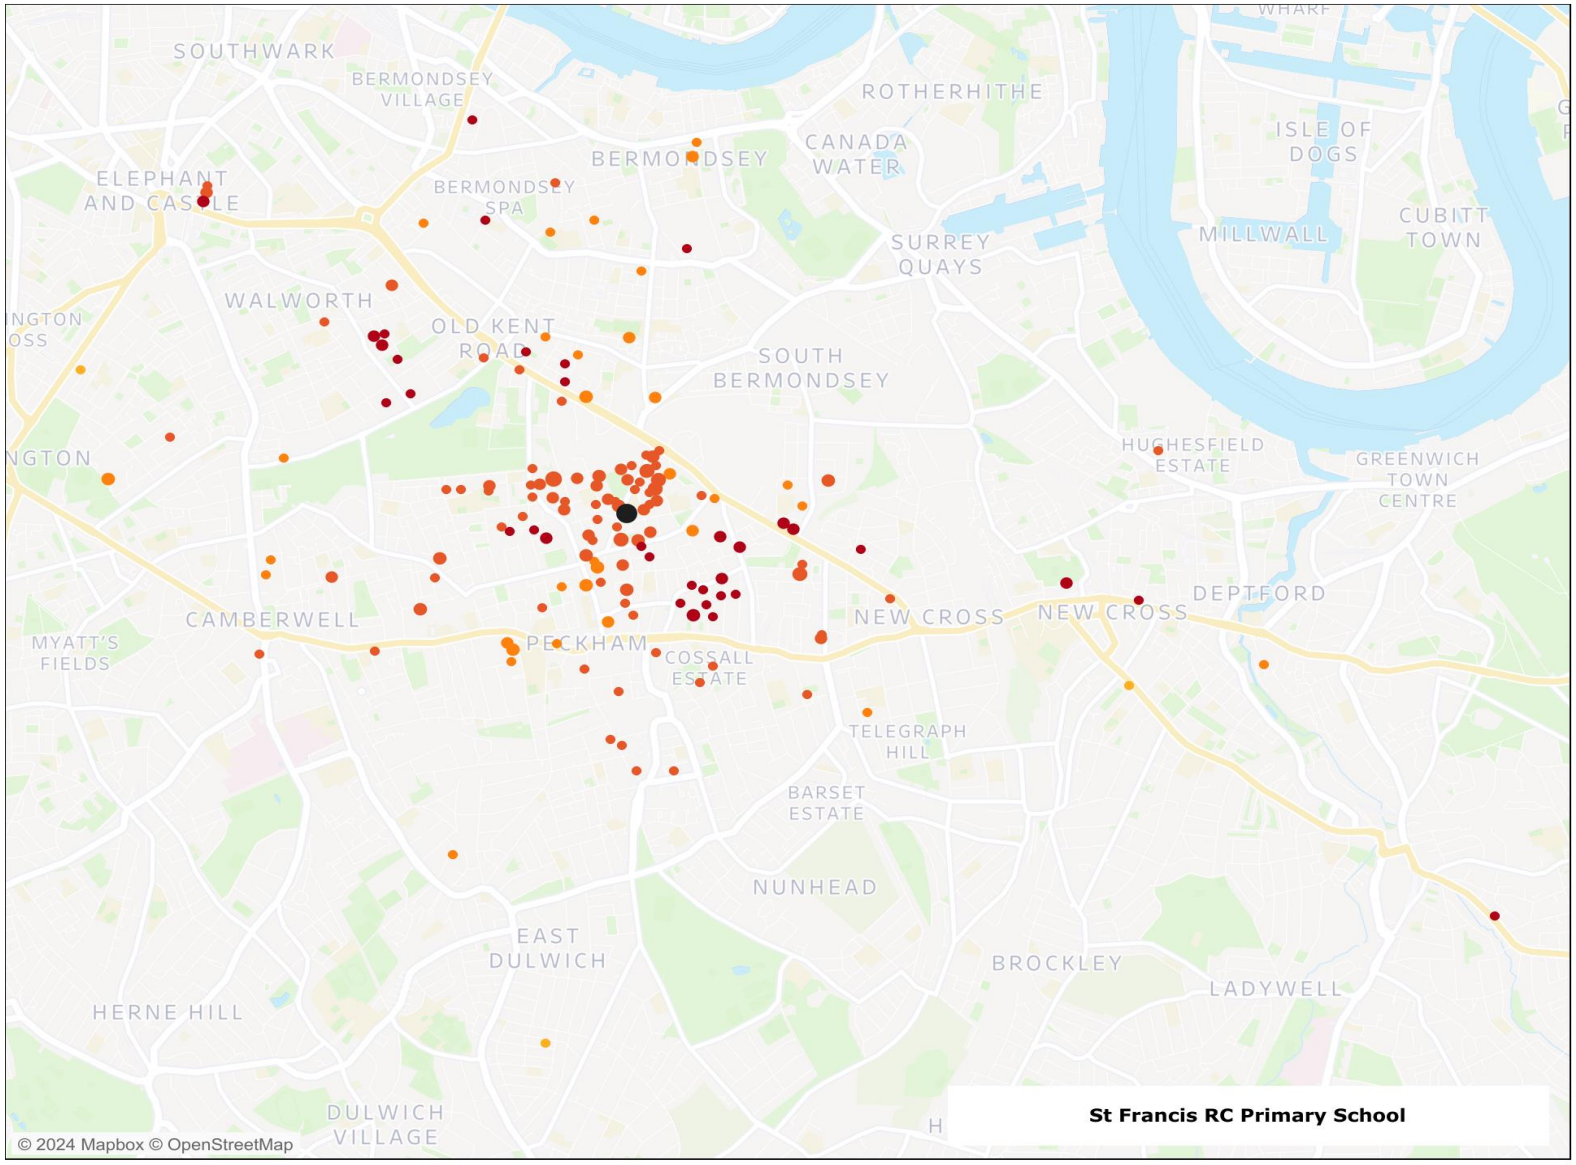
Map of Pupil Residence (Jan 2024)

St Francis Catholic Primary School **2b**



Map shows 259 pupils. Does not show 23 outside the map boundaries and 1 with missing or unrecognised postcode.

Key (Deprivation Band):

- Band 1a: 10% Most Deprived
- Band 1b: 10-20%
- Band 2: 20-40%
- Band 3: 40-60%
- Band 4: 60-80%
- Band 5: 20% Least Deprived
- Unknown IDACI band
- Location of school

Questions to Consider

1. Are there local areas that do not have many pupils attending your school? If so, what are the reasons for this?
2. Do pupils that travel further to your school come from more deprived or less deprived areas?

Note:
Each dot represents the postcode that a pupil lives in. Where more than one pupil lives in the same postcode, the dot will be larger.

© Mime 2024

3. Pupil Behaviour

Analysis of pupil absence and exclusions

© Mime 2024

Pupil Absence (Autumn & Spring Terms)

St Francis Catholic Primary School **3a**

i) Overall & Unauthorised Absence - Aut/Spr^

Overall Absence

	2021/22	2022/23	2023/24
Eng	6.2%	6.0%	5.3%
LA	5.4%	5.7%	5.0%
Sch	4.3%	5.9%	4.6%

Unauthorised Absence

	2021/22	2022/23	2023/24
Eng	1.2%	1.4%	1.5%
LA	1.3%	1.6%	1.4%
Sch	1.6%	2.3%	1.4%

ii) Persistent & Severe Absentees - Aut/Spr^

Persistent Absentees[1]

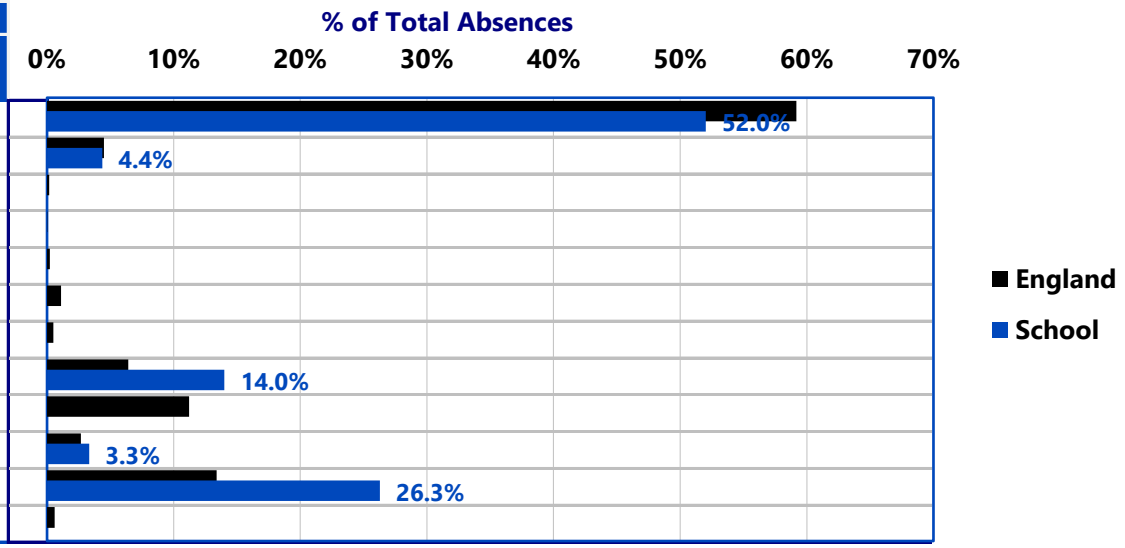
	2021/22	2022/23	2023/24
Eng	18.2%	17.3%	15.4%
LA	15.7%	17.2%	14.0%
Sch	13.9%	16.5%	16.5%

Severe Absentees[1]

	2021/22	2022/23	2023/24
Eng	0.6%	0.7%	0.8%
LA	0.8%	0.7%	0.9%
Sch	1.2%	2.1%	2.8%

iii) % Absence by Reason - Autumn & Spring Terms

	Reason	Code	School	Comparisons LA	Comparisons England^
Authorised	Illness (inc from COVID)	I	**52.0%**	58.7% ↓	59.2% ↓
	Medical/dental appt	M	**4.4%**	5.0% ↓	4.5% ↓
	Religious observance	R	**0.0%**	0.1% ↓	0.2% ↓
	Study leave	S	**0.0%**	0.0%	0.0%
	Traveller absence	T	**0.0%**	0.0%	0.2% ↓
	Agreed holiday	H	**0.0%**	1.5% ↓	1.1% ↓
	Excluded	E	**0.0%**	0.4% ↓	0.5% ↓
	Other authorised	C	**14.0%**	7.1% ↑	6.4% ↑
Unauth	Holiday not agreed	G	**0.0%**	6.2% ↓	11.2% ↓
	Arrived late	U	**3.3%**	3.5% ↓	2.7% ↑
	Other unauthorised	O	**26.3%**	16.4% ↑	13.4% ↑
	No reason yet	N	**0.0%**	1.0% ↓	0.6% ↓

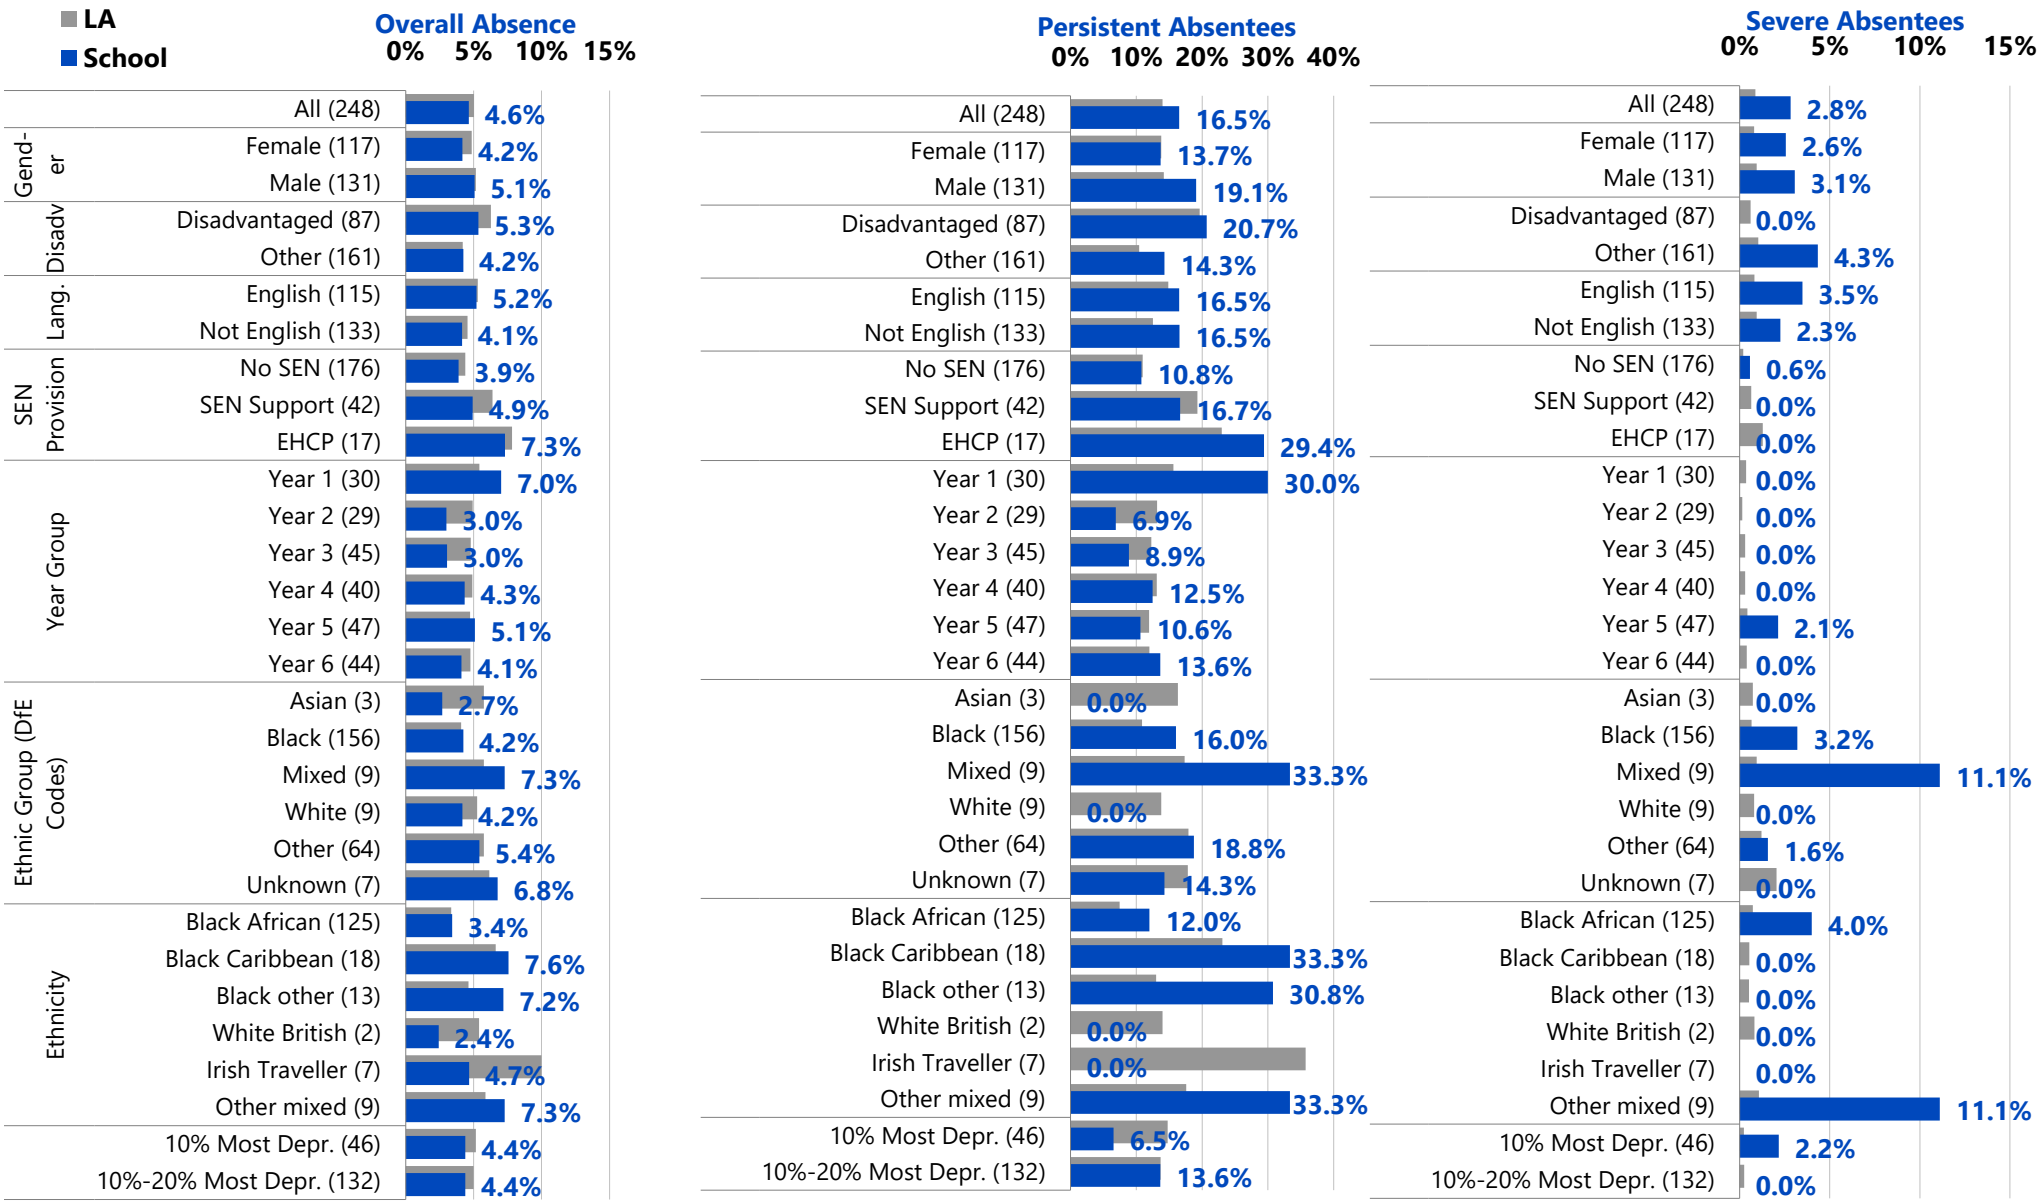


^England comparisons for 2023/24 are for the Autumn term only.

[1]A persistent absentee is defined as someone with 90% or less attendance. A severe absentee is defined as someone with 50% or less attendance

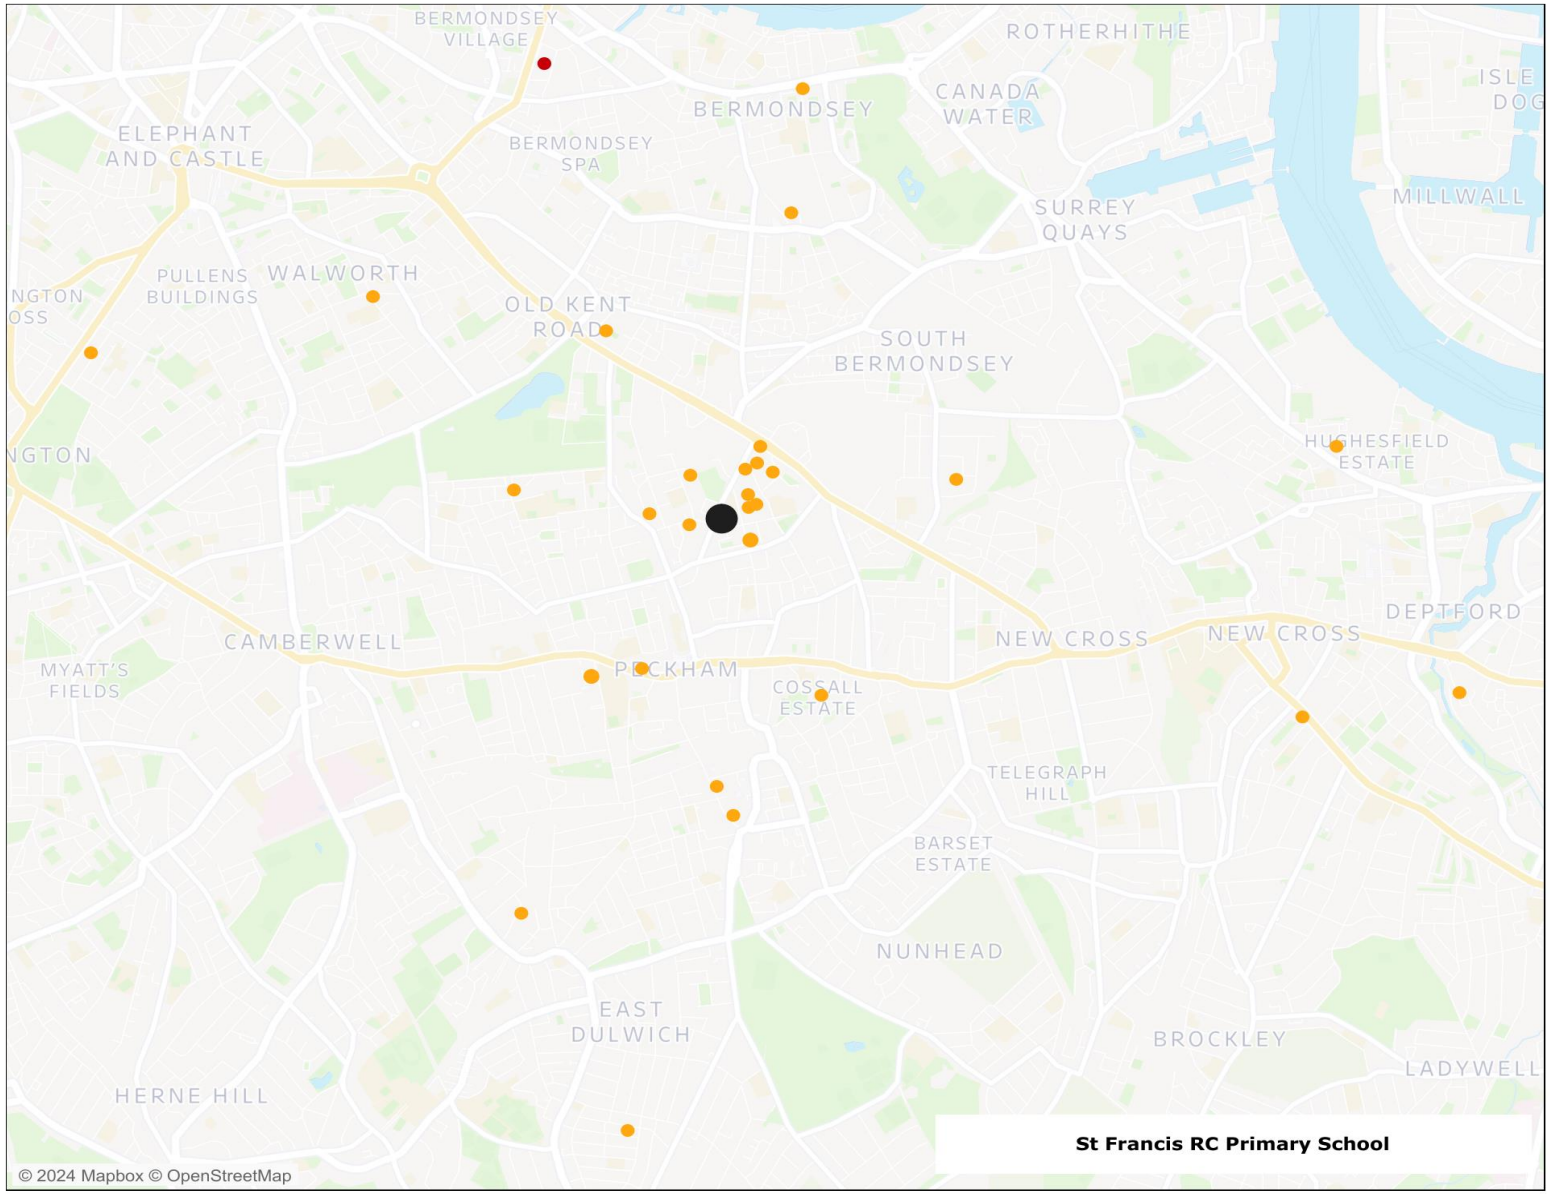
© Mime 2024

iv) Vulnerable Groups Analysis - Autumn & Spring Terms



© Mime 2024

v) Map of Persistent Absentees



Key (Attendance Band):

- 50-90% attendance (Persistent but not Severe Absentee)
- <=50% attendance (Severe Absentee)
- Location of school

Questions to Consider

1. Are there any concentrations of dots that suggest persistent absence is a problem in particular geographical areas?

2. If so, are there particular actions you need to take to address this?

Notes:
Each dot refers to a single postcode. Where more than one pupil lives in a particular postcode, the dot will be larger. If pupils in the same postcode have different attendance levels, the dot will become a pie chart.

Pupils from Nursery and Reception are not plotted on the map.

© Mime 2024

Exclusions & Suspensions (2023/24 Aut & Spr)

St Francis Catholic Primary School **3b**

i) Headline Exclusions & Suspensions Indicators

	Indicator	Primary Comparisons: Sch (Aut/Spr 23/24)		LA (Aut/Spr 23/24)	Eng (Full Year 2022/23)
	Permanent Exclusions (% of all pupils)	**0**	0.00%	0.00%	0.03%
Suspensions	No. of instances (suspensions as a % of all pupils)	**0**	0.00%	0.91% ↓	1.81%
Suspensions	No. of pupils with suspensions (% of all pupils)	**0**	0.00%	0.55% ↓	0.82%
Suspensions	Average length in days of suspensions	-		2.0	2.0
Suspensions	0.5 to 5 Days	-	-	98.5%	98.7%
Suspensions	6 to 15 days	-	-	1.0%	1.1%
Suspensions	16+ Days	-	-	0.5%	0.2%

Suspensions Over Time

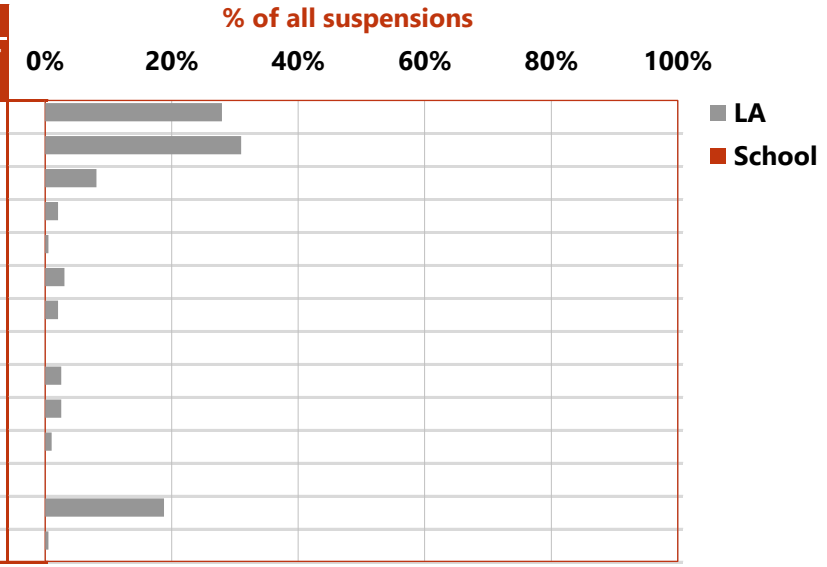
Instances as a % of All Pupils

	2020/21	2021/22	2022/23	2023/24*
England	0.99%	1.42%	1.81%	
LA	0.84%	0.90%	1.38%	0.91%
School	0.26%	0.28%	0.00%	0.00%

*Only covers Autumn & Spring terms in 2023/24

ii) Suspensions by Reason (% of all instances of suspensions)

Reason (Selected codes)	Code	Primary Comparisons^: Sch (Aut/Spr 23/24)	LA (Aut/Spr 23/24)	Eng (Full Year 2022/23)
Physical Assault Against a Pupil	PP	-	27.9%	17.5%
Physical Assault Against an Adult	PA	-	31.0%	24.9%
Verbal abuse/threatening behaviour - adult	VA	-	8.1%	11.8%
Verbal abuse/threatening behaviour - pupil	VP	-	2.0%	5.1%
Offensive Weapon	OW	-	0.5%	1.0%
Bullying	BU	-	3.0%	0.6%
Abuse - Race	RA	-	2.0%	1.0%
Abuse - Sexual Orientation / Gender Identity	LG	-	0.0%	0.1%
Sexual Misconduct	SM	-	2.5%	0.5%
Damage	DM	-	2.5%	7.1%
Theft	TH	-	1.0%	0.1%
Drugs and alcohol related	DA	-	0.0%	0.3%
Persistent Disruptive Behaviour	DB	-	18.8%	29.2%
Inappropriate Use of Online Technology	MT	-	0.5%	0.4%

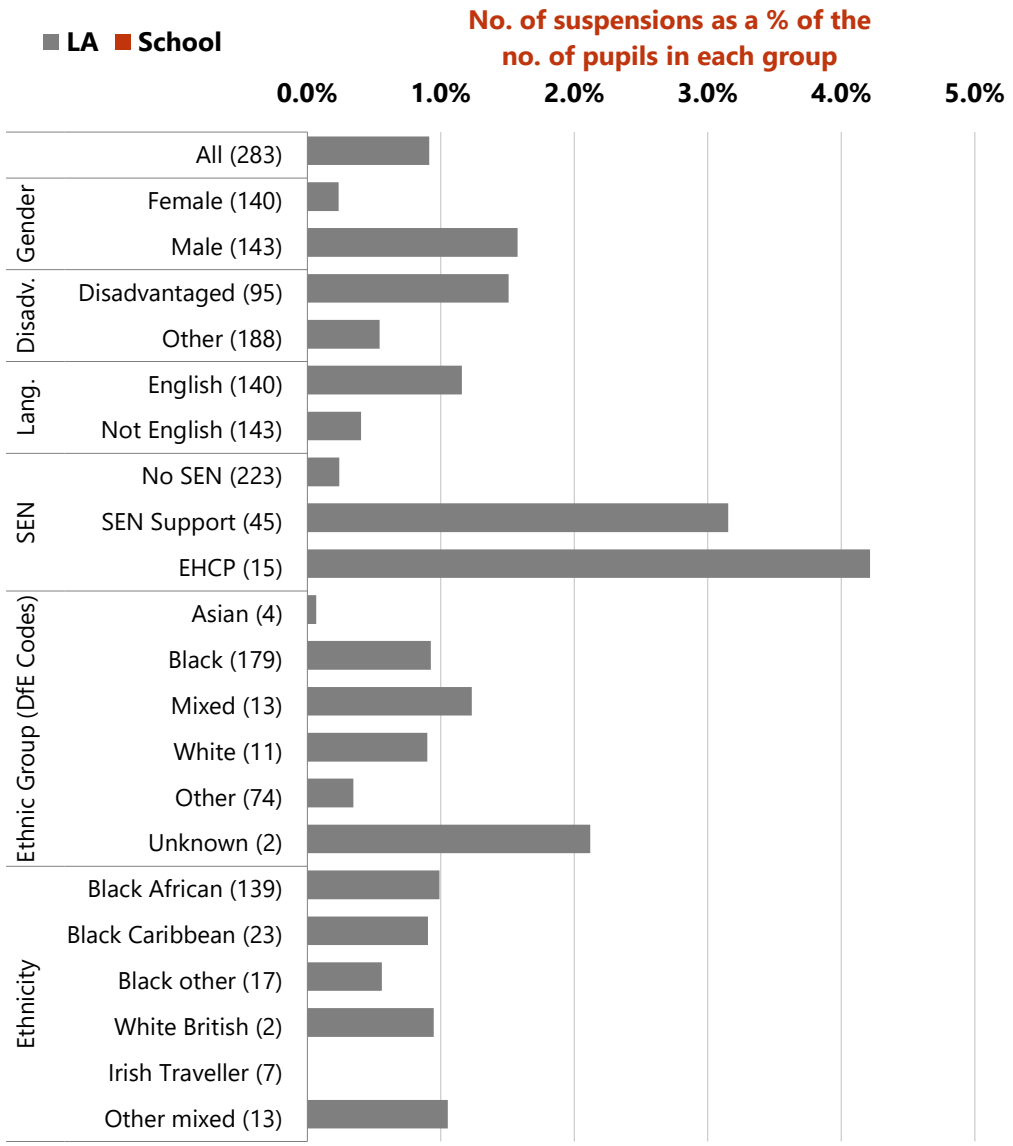


2019/20 and 2020/21 data is affected by the periods of school closure due to the COVID-19 pandemic and therefore rates are lower than for a typical year.

^ School and LA reason code analysis shows the first reason stated for an exclusion, whereas England data shows all reasons given for each exclusion (i.e. one exclusion may have more than one reason).

© Mime 2024

iii) Vulnerable Groups Analysis - Suspensions (as a % of Pupils in Each Group)



NB. Because a pupil may have more than one suspension, the percentage for a particular group could be more than 100%. Numbers in brackets show the number of pupils in each group in the school.
The ethnicities displayed are based on the overall cohort size of each group, not the number of suspensions - this may mean that the specific ethnicity with suspensions is not visible

4. Staffing

Information on your school workforce

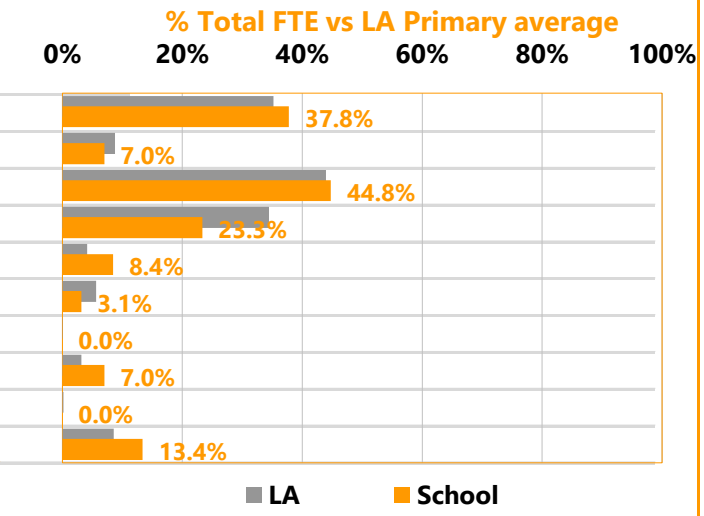
© Mime 2024

School Workforce (November 2023)

St Francis Catholic Primary School **4a**

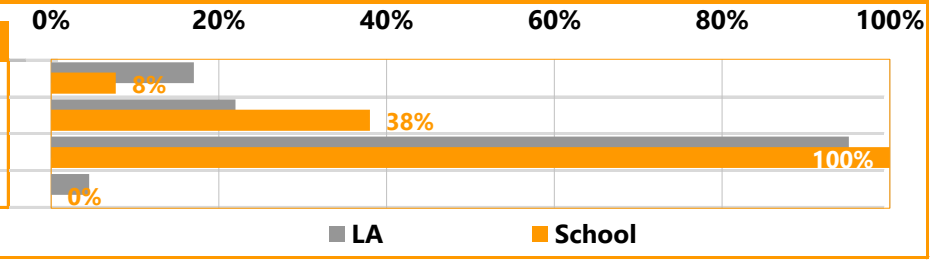
i) School workforce breakdown by role type

	School headcount	School FTE	Total FTE %	
			School	LA Primary average
Classroom Teachers	11	10.8	37.8%	35.2%
Teachers in the Leadership Group	2	2.0	7.0%	8.7%
Total number of Teachers	13	12.8	44.8%	43.9%
Teaching Assistants	8	6.7	23.3%	34.4%
Other Support Staff	4	2.4	8.4%	4.1%
Administrative Staff	1	0.9	3.1%	5.6%
Technicians	0	0.0	0.0%	0.1%
School Business Professionals	2	2.0	7.0%	3.1%
Leadership Non-Teachers	0	0.0	0.0%	0.2%
Auxiliary Staff	12	3.8	13.4%	8.5%
Total School Workforce	**49**	**28.6**		



ii) Staff characteristics

	School %	LA Primary average %
All Teachers who Are Male (%)	8%	17%
Teachers Aged 50 or over (%)	38%	22%
Teachers with Qualified Teacher Status (%)	100%	95%
All Teaching Assistants who Are Male (%)	0%	5%



iii) Teacher sickness absence

	Teachers with at Least One Period of Sickness (%)	Total Number of Days Lost to Sickness	Average Number of Days Lost to Teacher Sickness (per teacher)
School	67%	93	4.4
LA Primary average	66%	79	4.4

iv) Other workforce indicators

	Mean Gross Salary of All Teachers (£)	Pupil: Teacher Ratio FTE
School	£57,876	22.1
LA Primary average	£52,739	18.9

Note that * indicates that the data has been suppressed by the DfE due to small numbers or is missing

5. Local Area Context

Analysis of the local area, based on the home locations of the pupils at your school

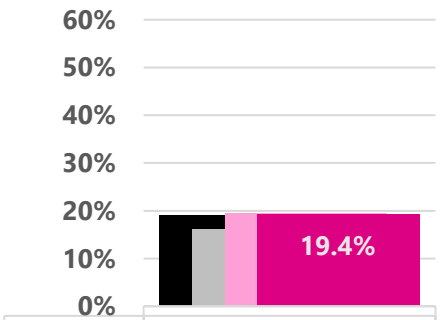
© Mime 2024

Local Context

St Francis Catholic Primary School **5a**

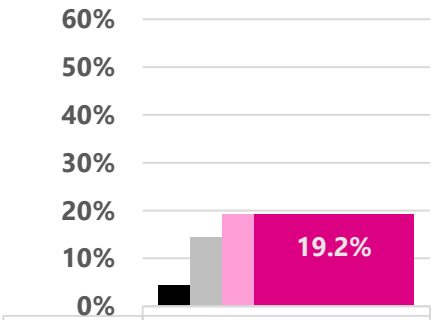
This page uses the home locations of children at your school matched to data from the 2021 Census and DWP to help illustrate the sorts of challenges that your children may be facing. The postcodes for each child at the school have been matched to small geographical areas (containing around 300 people) which gives an average across your school based on those local households. Based on this, the charts show the average for your whole school, as well as for your reception cohort only. LA averages are based on all pupils at state-funded schools in the LA. See Appendix 1 for full details of the measures included.

Relative Low Income



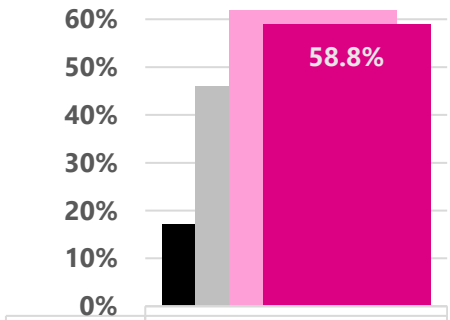
England	19.0%
LA	16.2%
Sch - Rec	19.4%
Sch - All	19.4%

Overcrowded Households



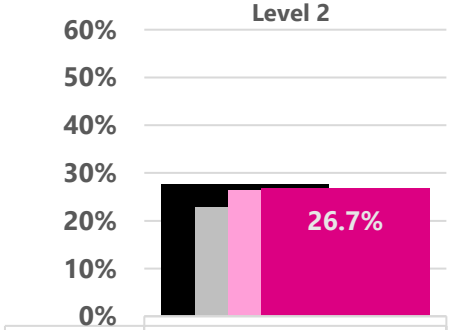
England	4.4%
LA	14.5%
Sch - Rec	19.3%
Sch - All	19.2%

Social Rented Houses



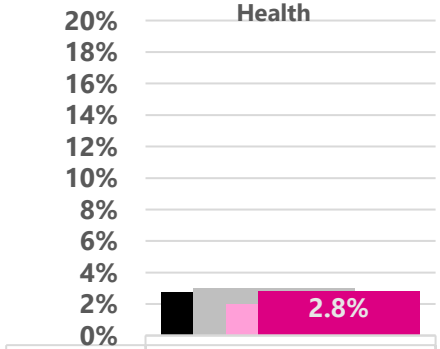
England	17.1%
LA	46.1%
Sch - Rec	61.8%
Sch - All	58.8%

Highest Qualification Below Level 2



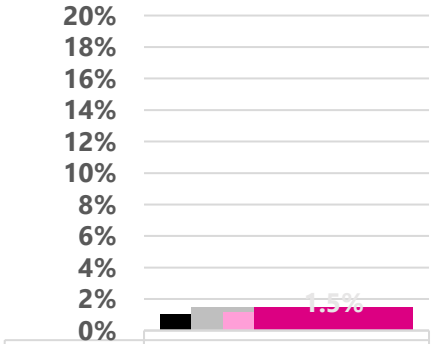
England	27.8%
LA	22.8%
Sch - Rec	26.5%
Sch - All	26.7%

Young People Not in Good Health



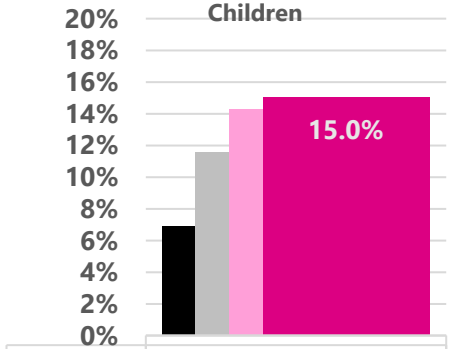
England	2.8%
LA	3.0%
Sch - Rec	2.0%
Sch - All	2.8%

Young Carers



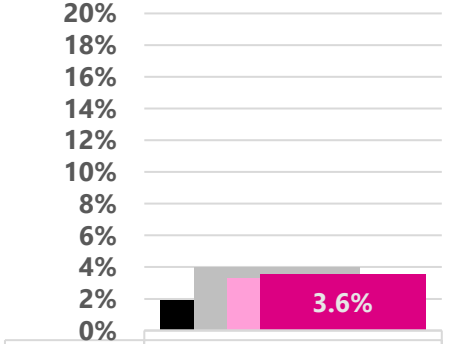
England	1.1%
LA	1.5%
Sch - Rec	1.2%
Sch - All	1.5%

Lone Parents with Dependent Children



England	6.9%
LA	11.6%
Sch - Rec	14.3%
Sch - All	15.0%

Resident in UK less than 2 years



England	1.9%
LA	4.0%
Sch - Rec	3.3%
Sch - All	3.6%

Appendices

© Mime 2024

Appendix 1 - Data Sources & Caveats

Section	Data Source
EYFSP	Validated EYFSP returns from schools. Local Authority figures do not include private, voluntary or independent (PVI) settings, unlike some other published analysis. National data for 2024 is from provisional information on Nexus and is for internal school/LA use only. Comparators for 2019 show the closest possible aspect from the previous framework - see Appendix 3 for more information.
Year 1 Phonics	Validated Year 1 Phonics check returns from schools. Analysis also shows the proportion of the full Year 2 cohort (who were on roll at the time of the phonics check) who achieved the threshold, including those who resat the check in Year 2. National data for 2024 is from provisional information on Nexus and is for internal school/LA use only.
Key Stage 1	No data for 2024. Prior year data is validated KS1 teacher assessment returns from schools.
Year 4 Multiplication Check	2024 test data provided by schools via CTF data returns. Children who left school are removed, but children who were absent, working below or unable to access the test are included as not achieving. Prior year data is for all schools in the local authority from Nexus. National data is taken from the DfE Statistical First Release.
Key Stage 2	Unvalidated test and TA data provided by the DfE in Summer 2024 via ASP. This will include pupils who may be discounted from final DfE figures. Historical data is validated DfE data for 2022, and is the validated performance table data for each of the other prior years; note that the DfE sometimes retrospectively changes historical data in subsequent publications. National data for 2024 is taken from the DfE provisional Statistical First Release.
School Census	Validated January 2024 school census returns from schools. LA figures do not include special schools or nurseries, but do include primary age pupils from all through schools.
Pupil Absence	School census returns from schools in January and May 2024. Historical data is from DfE validated performance table and Statistical First Release data (in a small number of cases this is suppressed and therefore not shown). Note that LA figures for the current year include primary aged children from all through schools, unlike published DfE data for prior years. Absence analysis does not include pupils who are below the statutory school age (age 5).
Exclusions	Data from 2023/24 is taken from the January and May school census, so does not yet show the full year. Prior years show the full year, based on DfE published statistics from the school census; however, note that LA figures in this profile include primary aged exclusions from all through schools (shown as a proportion of all primary aged pupils), unlike published DfE data. Reason code analysis is based on the first reason stated for each exclusion for the LA. The national comparisons, however, shows the total reasons given that are assigned each code (where one exclusion may have more than one reason).
School Workforce	Data from School Workforce Census as of November 2023. Some sickness data is suppressed due to small numbers of teachers involved. Local Authority figures do not include all through schools.

© Mime 2024

Appendix 1 - Data Sources & Caveats

Section	Data Source
Local Context	Data from the 2021 Census and the Department for Work and Pensions (DWP). The average values for small geographical areas (OA and Ward level) were matched to the postcodes of school children (taken from the validated January 2024 school census returns from schools). See below for details on each of the measures: - Relative Low Income – Ward level data from the 2022 DWP release: Children in low income families: local area statistics. This gives the percentage of 0-15 year olds living in a family defined as being in low income before housing costs. - Overcrowded Households – Output Area level data from the 2021 Census (ONS), under the Housing topic. This is based on the occupancy rating for bedrooms, which is calculated by comparing the number of bedrooms required by the household to the number of available bedrooms. Households with a negative occupancy rating are defined as being overcrowded. - Social Rented Houses – Output Area level data from the 2021 Census (ONS), under the Housing topic. This gives the percentage of resident households that fall under the "Rented: Social rented" category for the tenure of household. - Highest Qualification Level Below Level 2 – Output Area level data from the 2021 Census (ONS), under the Education topic. This gives the percentage of the over 16 year old resident population that either holds no qualifications, or only holds a Level 1 or entry level qualification. - Young People Not in Good Health – Output Area level data from the 2021 Census (ONS), under the Health topic. This gives the percentage of 0-15 year old residents who assessed the general state of their health as not being either "Good" or "Very Good". - Young Carers – Output Area level data from the 2021 Census (ONS), under the Health topic. This gives the percentage of 0-15 year old residents that are recorded as providing any hours of unpaid care per week. - Lone Parent Households – Output Area level data from the 2021 Census (ONS), under the population topic. This gives the percentage of households that fall under the category of "Single family household: Lone parent family: With dependent children" for household composition. - Resident in the UK Less than 2 years – Output Area level data from the 2021 Census (ONS), under the Population topic. This gives the percentage of all usual residents, who were not born in the UK, and most recently arrived to live in the UK less than 2 years ago.

Note that contextual analysis (e.g. KS1 analysis by ethnicity) is created by linking the above data sources to the January census for the same year and school, using a pupil's UPN. Note that, owing to pupil mobility, this may not be the same as the analysis in schools' own systems which may include the characteristics of new pupils on roll at the point of the assessment in the summer term.

The ethnicities displayed on the vulnerable groups analysis charts are the six ethnicities with the largest cohort size in your school for the relevant year group.

© Mime 2024

Appendix 2 - Glossary

ARE	Age related expectations
CL	Communication and Language (EYFSP prime area of learning)
Disadvantaged	Term used to describe pupils who are either FSM Ever 6 (i.e. they have received free school meals at some point in the preceding 6 years), adopted from care or Looked After Children. "Other" is the term used to class all pupils other than those classed as disadvantaged
EAD	Expressive Arts and Design (EYFSP specific area of learning)
EHCP	Education, Health and Care Plan
EYFSP	Early Years Foundation Stage Profile
FSM	Free School Meals. Note that in this Profile, "FSM Eligible" describes pupils who were eligible for free school meals on the date of the school census (as opposed to FSM Ever 6 which looks at FSM eligibility at any point in the preceding 6 years)
FSM Ever 6	A pupil who has received free school meals at some point in the preceding 6 years
FT	Fixed term (Exclusion) - now referred to as a suspension by the DfE
FTE	Full-time equivalent. In FTE calculations part-time nursery pupils count as half an FTE, rather than one pupil used in headcount calculations.
GLD	Good Level of Development at EYFSP defined as a pupil achieving the expected level or better in all aspects within the prime areas of learning (CLL, PD, PSED) and within literacy and maths
GPS	Grammar, Punctuation and Spelling (test at KS2)
IDACI	Income Deprivation Affecting Children Index - A national dataset that allows linking of a pupil's home postcode to a relative deprivation score. The index was updated in 2019
Joined school	A pupil's entry date is used to calculate the year in which they joined the school. However, note that entry dates can be affected by a school becoming an academy and by the merging of infant and junior schools
KS	Key stage
LA	Local authority
Lit	Literacy (EYFSP specific area of learning)
Math	Abbreviation used for Mathematics (EYFSP specific area of learning)
PD	Physical Development (EYFSP prime area of learning)
Persistent Absentee	A pupil attending school for 90% or less of their possible sessions
PSED	Personal, Social and Emotional Development (EYFSP prime area of learning)
RWM	Reading, Writing & Maths combined
Scaled Score	A pupil's raw test score is converted to a scaled score. A scaled score of 100 or more means the child has met the expected standard for the test
SEN	Special Educational Need
Severe Absentee	A pupil attending school for 50% or less of their possible sessions
Suspension	Formerly known as a fixed term exclusion
TA	Teacher assessment
Term Born	September to December are classed as autumn born, January to April as spring born, and May to August as summer born, regardless of whether the child is out of their regular year group
UPN	Unique Pupil Number
UTW	Understanding of the World (EYFSP specific area of learning)
10% Most Deprived Areas	Term used in the contextual analysis in this Profile to show pupils living in the 10% most deprived areas *nationally* (based on IDACI scores). Note that it does not show your school's 10% most deprived pupils (and some schools in less deprived areas may have no pupils in this category)
